In Christchurch ③

Closing at Narita Airport

I have met many people with different national and cultural backgrounds. I discovered good things about Japan, Tohoku area, and my hometown in a conversation with them. I felt the warmth of people every time I could overcome troubles and challenges thanks to support from people around me. The more I spent time in New Zealand, the more I appreciated my family and many supporters who brought me here. I feel I could get steps closer to my dream now by participating in this program. I would like to put my effort into my dream coming true.
